PROFESSIONAL SUMMARY

AI Full Stack Developer pursuing an AI & Data Science program at Myth Reality Technologies, with hands-on experience building real-world web applications and machine learning models. Developed and deployed Nandago, a live crowdfunding platform, using React.js, Node.js, MongoDB, and Razorpay. Passionate about applying AI, data science, and web technologies to solve meaningful problems.

CORE SKILLS

Frontend: React.js, HTML5, CSS3, Responsive Design, Canva (No-Code)

Backend: Node.js, Express.js, REST APIs

Database: MongoDB, Firebase

Machine Learning: Python, Pandas, Scikit-learn, Matplotlib, Seaborn, K-Means Clustering

AI & Agents: Dify, CrewAI, AI Chatbot Development

Payment & SMS: Razorpay, DLT-based OTP, Fast2SMS

DevOps & Tools: Oracle Cloud, Git, PowerShell, Shiprocket

Design: Poster Designing, Canva, Visual Communication

PROFESSIONAL EXPERIENCE

AI Full Stack Developer | Myth Reality Technologies Pvt. Ltd. | Chennai

- Built and deployed Nandago, a live crowdfunding platform, using React.js, Node.js/Express.js, and MongoDB
- Integrated Razorpay payment gateway with secure webhook handling and DLT-based OTP authentication via Fast2SMS
- Worked on AI chatbot and agent development using Dify and CrewAI for automation tasks
- Deployed and managed applications on Oracle Cloud using PowerShell scripting
- Collaborated on end-to-end product development from requirements gathering through deployment

KEY PROJECTS

Nandago — Live Crowdfunding Platform (nandago.org)

Role: Full-Stack Developer | Stack: React.js, Node.js, Express, MongoDB, Razorpay, Firebase, Oracle Cloud

- Built and deployed a live crowdfunding web platform to help NGOs and individuals raise funds
- Integrated Razorpay payment gateway with secure webhook handling for donation processing
- Implemented DLT-based OTP via Fast2SMS for user authentication and verification
- Designed MongoDB schemas for users, campaigns, and donations; built admin approval workflow
- Deployed on Oracle Cloud server using PowerShell; built responsive React.js frontend
- Built multi-step form validation, fundraiser browsing, and donation progress tracking

Heart Failure Prediction Using Clinical Data — Machine Learning

Tools: Python, Pandas, Scikit-learn, Matplotlib

- Developed an ML model to predict heart failure risk based on real patient clinical data
- Performed data cleaning, feature selection, and model evaluation using classification algorithms

AI Chatbot & Agent Projects — AI Tools

Tools: Dify, CrewAI

- Built AI agents for customer support automation and diabetes prediction tasks
- Used the Dify platform for no-code AI chatbot creation and deployment

MR Tech Company Website — Full-Stack

Stack: React.js, Node.js, Firebase, Shiprocket

- Developed company website with Firebase backend and Shiprocket delivery integration
- Implemented responsive design for mobile and desktop users

Poster Design & Visual Communication — Design

Tools: Canva, Design Tools

- Designed professional posters for NGO campaigns, social awareness, and competitions
- Won 1st Prize at PRSI Poster Competition, recognized for creative visual communication

EDUCATION

AI & Data Science Program (2-Year Course) — Myth Reality Technologies Pvt. Ltd., Chennai

B.Sc. Physics — Queen Mary's College, Chennai | Score: 70%

12th Standard — Lourdu Annai Higher Secondary School, Kanakkankuppam | 80%

10th Standard — Lourdu Annai Higher Secondary School, Kanakkankuppam | 70%

LANGUAGES

Tamil (Native), English (Intermediate)
